MARGARET BOIKE

JUDGE

USA

JUDGING SECTIONS: A, B, F

Margaret is a retired software engineer who worked for computer manufacturers designing and implementing language processing software for small scale computers, as well as the largest, most powerful supercomputers used in such complex applications as oil exploration, aircraft design and weather forecasting worldwide.

She was introduced to photography at an early age by her father, who was an amateur photographer and took her on outings with other members of the camera club to which he belonged. She learned how to develop film and prints in her father's darkroom, but was more interested in the chemical process than in the resulting photos! During her working years she was able to purchase Nikon cameras from her employer at a great discount and took many photos of her children, as well as other kinds of candid snapshots.

In her retirement years, Margaret finally had the time to seriously study photography. She joined the Photographic Society of America (PSA) in 2010 and took advantage of the many benefits offered to PSA members. She enjoys competing in PSA recognized international exhibitions and has well over 2,000 acceptances. In 2018 she was recognized as PSA "Volunteer of the Year" for her extensive volunteer work in Exhibition Services.

NORMAN JOHNSON

JUDGE

USA

JUDGING SECTIONS: C, D, E

Norman first got interested in photography at about 10 years of age. He enjoyed the taking of photographs but the work of the wet darkroom did not appeal to him so he quit photography. Later when color slides was the way to go he resumed his interest in photography. Most of his work career was in New York City in financial services. He “escaped” that environment in 1994 and moved west to Wyoming where his photo activity increased. He prefers action photography such as sporting events like baseball, rodeo, motorcycle racing and animal photography.

Being he likes action photography he shoots in JPEG only, as RAW can reduce the frames per second. The more frames per second, the better the odds of getting the peak of action. Being a JPEG photographer he finds this substantially reduces post capture possibilities. He says that is good, as his pictures are the truth as to what was there. Post capture work can turn reality into a fairy tale. He received his EPSA some ten to twelve years ago. He has more than enough acceptances for a GMPSA, but finds taking pictures and exhibiting them a more interesting use of time than doing the paper work to receive a new set of initials after his name. In PSA's Who's Who he has been in the Top Exhibitors box several times in Nature, Travel and Journalism in both projected images and prints. In 2018 in Nature Projected Images he was 5th in the world in the adjusted score and #1 in total acceptances. He also exhibits in the Projected Image Division/Color, where he has a Galaxy 8.

BOGDAN BRICELJ

JUDGE

SLOVENIA

JUDGING SECTIONS: A, B, C, D, E, F

He was born in the year 1958 in town Jesenice, Slovenia. He graduated at Faculty of electrical engineering in Ljubljana. He was working for 9 years in steel factory as service engineer. He was learning the art of photography and developing of black and white photos in the photo school in primary school. After that he passed over to slides. In 1973 his first slide was accepted on a state exhibition. More than thirty years he had an ordinary Praktica without any electronics on all his journeys. He bought his first digital camera in the year 2004. All these years he uses compact cameras with large zoom.

He prefers to make photos of nature: animals, flowers and landscape. He also likes macro and underwater photography. His other preferred theme is sports, especially outdoor sports like skiing, ski jumping, kayak and swimming. In the year 2005 he joined to the photographic club Fotografsko drustvo Jesenice. He's sending his photos to many exhibitions worldwide. Until the end of the year 2020 he has got 246 awards. Until now he has made 34 exhibitions of his own. In the year 2018 he has got title EFIAP/p and in 2018 GMPSA as the first Slovenian photographer. He was the president of photographic club since 2009 to 2017. In these years the club was first or second most successful club in Slovenia. His photographs were published in many Slovenian and foreign books, magazines and other publications. He has written also four articles for PSA Journal. He's especially proud, that also National Geographic has published his photos.

VLADIMIR JOVANOVSKI

JUDGE

NORTH MACEDONIA

JUDGING SECTIONS: A, B, C, D, E, F

Vladimir Jovanovski, MPSA, GPU HERMES, RISF5, was born in 1983. He is a distinguished photographer from Macedonia and the most successful representative of Macedonian photography, having taken part in numerous international exhibitions around the world. He has exhibited his works in 35 countries and as a result, has received over 100 awards and certificates. He was proclaimed by The Photographic Society of Macao as one of the 100 most influential photographers in the world. In 2018, he has received the award for best world photographer from the SSS in Turkey.

His biggest successes, according to him, are the projects 'The other one hundred' and 'On Macedonian photography'. He was a member and president of the Photo cinema club 'Kozjak' from Kumanovo. Currently he is an active member of Photo club 'Kumanovo'. He is also the director of Malinski Photo Festival, an honorary member of Image Sans Frontier, Image Colleague Society and the Photo Club 'Kragujevac'. He is also a representative of PSA, GPU and ISF for the Republic of Macedonia and the current president of IAAP. When it comes to his photographs, he is not a mere recorder of things. He has a sense of the space around him, feeling the light, the ambient and life. He is constantly in search of all these things, confronting inner feelings, transferring them into his photographs. In the last couple of years, his approach has been more thematic.
