**INTERNATIONAL EXHIBITION OF ART PHOTOGRAPHY**

22 February - 3 March 2013, NUCK - Kriva Palanka, Macedonia

The background features a warm, abstract composition of soft, out-of-focus red and orange circles (bokeh) scattered across a light cream-colored field. In the lower right, there is a network of thin, intersecting lines forming a geometric pattern of overlapping circles and triangles, with small red dots at the vertices. The overall effect is ethereal and artistic.

best author

**ARIO WIBISONO - Indonesia**

Born and bred in Indonesia, a tremendously lovely country. Studied at Bandung Institute of Technology (ITB) - one of the best Universities in Indonesia - where he learned engineering. Worked for several commercial and investment banks. Spent almost his whole career in the investment banking industry and dealt with many people, which was a great experience for him. In 2007 he started his own business in the telecommunication industry.

He started to learn photography in 2009, learning it from several professional photographers in Indonesia, Asia and America. Because he like to deal with people, until now he have only been taking people / human beings as his photo subject. He always communicates with the subject, which is an essential process in his photographs. Diverse expressions and poses of a different human beings, that is what he like the most. That's why SOUL photo competition is definitely a good learning experience for him.
