# KORITON - KRATOVO 2018

## JURY

**ALEKSANDAR DRAGISHEVSKI** was born in 1992 in Kumanovo, the Republic of Macedonia. In 2013, he graduated from the FON University, Faculty of Design and Multimedia, at the Graphic Design study program. He channels his love for art using fine-art photography. His interest for photography began during his high school years where he took part in projects intended for amateur-photographers. He has participated in a number of national and international competitions and exhibitions and he has been awarded with numerous certificates and prizes. In 2018, as a part of the Malinski Photo Festival, he had his first solo exhibition entitled 'An incomplete story'. This exhibition was a collection of portraits. He is a secretary and one of the founders of Photo Club 'Kumanovo' and he is a member of the organizational team of Malinski Photo Festival.

**ZHAKLINA STEFANOVSKA** was born in 1974 in Kumanovo. She completed her elementary and high school education in Kumanovo. She graduated from the Faculty of Philosophy in Skopje at the Institute of Social work and social policy. She received her MA at the same faculty in 2012. She works at Venco Digital, a photo studio run by her family. This was her motivation to complete the art photography course in 2014, mentored by Vladimir Jovanovski. Her main inspirations are the people in rural and urban areas and portraits. She was one of the founders of Photo Club 'Kumanovo' in 2014. The same year, her photos were exhibited for the first time at the club exhibition 'Women and Photography'. She took part in several club exhibitions and a number of state and international photo salons where she received awards and certificates. She is a promoter and a member of the organizational team at Malinski Photo Festival and 'Women and Photography'.

**GJORGJI KOSTOVSKI** was born in 1978 in Kriva Palanka. He holds a degree in Art History. During his studies, he developed an interest for photography as a means of expression, allowing him to do experimentations with long-exposure. His style was formed before he learned more about the technical part of photography. In his early period, the atmosphere of his photographs was gloomy and dark, presenting the cries of lonely and powerless human beings. In the meantime, he started photographing cultural events professionally, such as music and theater festivals. All of his works have something in common which are the dark gamma and the use of contrast and color, all giving out a mystique air. This goes in line with his personal attitude towards photography according to which art must not mirror reality. It has to be layered with the intention of dragging us deep into thought and feeling.
